Alexandria Gazette

SATURDAY EVENING, JANUARY 18.

THE PRINCESS OF WALES AND HER CHIL-DREN .- The large hall you enter on arriving at Sandringham, the Princess of Wales' place, is fitting up as a dining-room, with a piano forte, easy chairs, and two large writing tables, at one of which the Prince usually writes his letters on his return from shooting. Behind the piano is a quantity of toys for the children to amuse themselves with at "the children's hour," after tea. Here, at 5 o'clock, she tea table is placed in the centre of the hail, and is presided over by the Princess in the loveliest of tea gowns. It is a pretty sight to see her surrounded by her three little girls, who look like tiny fairies, and who run about to put papa's letters in a large pillar run about to put papa's letters in a large pillar post-box at one end of the hall. There are generally four or five large dogs to add to the circle. In this same hall the balls take place. The floor is excellent, and the music is in the gallery up

THE LIMITS OF VIEW .- "The limits of view," says Mr. Tegetmeier, "from so slight an elevation as 3,000 feet in the comparatively misty climate of Sectland are far exceeded under more favorable circumstances. Thus Mr. Glaisher, from his elevation over London, in one of his balloon voyages, saw at the same time from Brighton and Dover, on the south coast, to Yarmouth, in Norwich. Mr. C. Darwin speaks of a volcano in the Cordilleras, visible one hundred or the property and the inhabitants of the plains of miles away, and the inhabitants of the plains of Bengal are familiar with the white line of the snow-capped Himalayas on the horizon, two hundred miles distant.'

The Deleterious Use of Alum in Bread and Baking Powders.

BY HENRY A. MOTT, JR., PH.D., E. M.

Out of the many baking powders I have ex-smined, I have selected the more prominent ones that are adulterated, giving in each case a ones that are adulterated, giving in each case a quantitative analysis of the same. The following analyses are of "Dooley's Standard Baking Powder," "Charm Baking Powder," and the baking powder manufactured by C.E. Andrews & Co., of Milwaukeo. The analysis of the last three baking powders given in the first column was made by Professor Robert W. Schedier. NO. 1-DOOLEY'S STANDARD BAKING POWDER.

On reviewing the above analyses it will be seen that, in the "Patapsco Powder," above 20 per cent of burnt alum is used; over 22 per ct. in "Andrew's," over 26 per cent in "Dooley's," and about 30 per cent in the "Charm." De Not one pound of these powders could be sold in England, as it is against the law to use alum for mak-

ing bread. NOTICE. We have just commenced our MEAT BUSI-
